

President's Report – Tuesday 4th August 2026

On Friday 3rd July the P&C joined staff and students in celebrating NAIDOC week by cooking and giving out samples of kangaroo sausages during the lunch break. The sausages were well received with some students asking for more. It is fantastic that they are willing to try new and different foods. Also on display were traditional Noongar food plants. These were Old Man Saltbush (*Atriplex nummularia*), Samphire (*Tecticornia lepidosperma*) and Youlk (*Platysace deflexa*). Unfortunately, we were unable to offer samples of these plants this year. Maybe next year my plants will be big enough to provide some samples.

I wish to thank Anne, Ian and Lisa for helping on the day. Anne assisted with set up; Ian took charge of the BBQ and Lisa put together and handed out the samples.

Our next P&C event is the sausage sizzle at the athletics carnival on 28th August. Ian has already expressed interest in helping with the BBQ on the day. It is always a fun day. Requests for volunteers will be sent out soon.

I wish to congratulate Fiona and Natalie D on their election to the positions of Vice President and Secretary respectively. Thank you.

Andrea Doust
President KSHS P&C
